Q10

Start

Input
Process

n, Cnumber

For every consecutive string in n
 $90 == 9$

then

$n = Cnumber$

Output

Cnumber

Stop

IPO

Input
n, Cnumber

Process

Put every $9 = 90$ in n
Put C = new n

Output
Cnumber

Explanation: The program removes a single zero after 9. So that we get correct string of numbers.
